

15kW- 45kW Three Phase Heat Pump

	Suitable for ground or water source heat extraction							
Size	15kW, 17kW, 19kW, 22kW, 26kW, 30kW, 37kW, 45kW							
Refrigerant	R407C, CFC-free (flow temperatures up to 55C) R134a, CFC-free (flow temperatures up to 65C)							
Voltage	400V/50Hz (3-phase)							
Description	With scroll compressor, large condenser, built-in evaporator with expansion valve & inspection glass. Built on robust frame with heat and sound-proof insulation, four flexible connection hoses, electric wiring with on/off switching, controls and safety features. Refrigerant-filled. System-tested.
